Arrival core team of each WP/ Cell in Salzburg

No.	Crisis managem. phase	Description
1	Pre-alert	Information is received on an event, which may lead to a possible major disruption to ATM, requiring activation of the crisis management arrangements.
2	Disruption	Major ATM disruption that impacts the ATM operations and which may escalate to a crisis. State of readiness to provide air navigation services at required level resulting in a major loss of capacity, or a major imbalance between capacity and demand, or a major failure in the information flow following an unusual and unforeseen event.
3	Crisis	In the crisis phase, the operation will go back to normal, and an evaluation of the impact will be finalised.
4	Recovery
